## THE PLTFRM STORY

*Many of our guests ask about the origins of our interesting name. As a business, PLTFRM is committed to using our country's rich heritage, specifically around architecture, to responsibly upgrade and tastefully modernise comfortable, convenient leisure experiences for our clients and their families, across all our outlets.*

*The very first PLTFRM was founded at Pretoria's Station in 2014 – literally on the platform next to the train tracks, in an iconic building designed by Sir Herbert Baker.*

*The interlinking effect of the lines inspired the design of our name and logo. Not just that, but also the fact that stations are nostalgically thought of as meeting places; a place of arrivals, connections, coming and going, departures... The associated notions of travelling and journeys, movement, exploration, adventures, novel discoveries, sacred treasures and keepsakes – all of these perched against the backdrop of family and familiarity – make up PLTFRM's inimitable DNA.*
